ALTERNATE CANCER TREATMENT PLANS

- Raindrop Therapy
- IonCleanse
- Ozonate
- Supplements

Class Schedule:

- Saturday 4/9: 10-11am
Healing Crisis
- Tuesday 4/12: 7-8pm
Intro to Crystals & Healing
- Monday 4/18: 7-8pm
Healing Crisis
- Wednesday 4/20:
7-8pm Back Care
- Thursday 4/28: 1-2pm
Back Care

APRIL IS CANCER AWARENESS MONTH

Taurox SB is a homeopathic chemical combination of taurine and beta-alanine that has been modified to be efficiently absorbed orally. Studies have been conducted and the published results show Taurox SB to be effective in reversing fatigue in patients with chronic fatigue, hepatitis C, and cancer. The effective dose of Taurox SB is very low, making it the most potent and powerful general use anti-fatigue element ever discovered. Taurox SB modulates the immune system (stimulating an under-active immune system and calming an over-active one), resulting in more effective immune response and decreased fatigue.

Initial clinical trials have shown Taurox SB to be effective for reducing fatigue in approximately 90% of patients suffering from moderate to severe fatigue that is associated with chronic fatigue syndrome, hepatitis C, and cancer. Most patients experienced this reduction in fatigue after 3-6 weeks or longer. The mechanism used in reducing fatigue appears to be in the balancing of cytokines (small proteins that regulate immunity and inflammation). Conditions involving disruptions of the immune system and cytokine levels can result in significant decreases in energy levels. The balancing of these cytokine levels is what helps to increase energy.

The compound is so powerful and used in such small amounts that when compared to other more commonly known anti-fatigue elements, it is consistently more than one thousand to one million times more potent by dose. This compound is a homeopathic remedy and does not contain caffeine or ephedra.

If you suffer from chronic fatigue or one of the above mentioned conditions and you feel as though you have exhausted all of your possible resources and you know where else to turn, give our office a call at (513) 772-9065. You can schedule a consult and we can work on getting you back on that road to recovery. We are also on the web at www.chiropractic4u.com. Don't put your health on the back burner any longer!!!

Healthy individuals can expect to feel lighter and experience a greater feeling of well being!

What is Ozonating?

Ozone (O₃) is the triatomic form of oxygen (O₂). It is the most active state of oxygen and is highly potent oxidant that has shown to possess broad –spectrum antimicrobial activity. Ozone does truly sterilize. It has the ability to get rid of bacteria, viruses, fungus, mildew, mold, spores, cysts, and many other contaminants while also removing dissolved organic materials by oxidation. When ozone breaks down it reverts back to oxygen naturally.

The PortaZone UV machine has an optional tube extension with a diffuser that is specifically made for ozonating olive oil. Ozonating for approximately 25 minutes will last for 4 days. You then apply the olive oil to the area you want to treat around 3 times per day.

If you have more questions, just ask Dr. Bender for more details!!!

Is IonCleanse for Me?

A charged atom is an ion that has either gained or lost an electron and then it will create a magnetic field that is capable of neutralizing charged particles that are opposite. There is a process called osmosis where the neutralized particles are pulled out of the body from a lower concentration to a higher concentration. Then the higher concentration is the ion field set up by the array in the water.

The feet, hands or body and the control unit goes into the water with the array and the unit delivers a small direct current into the array, which causes the metals within the array to generate negatively and positively charged ions by separating the water into hydrogen and oxygen.

Ions attach themselves to different toxic substances that were generated by the IonCleanse which appear to travel through the body, thereby neutralizing their negative and positive charges.

Approximately 95% of people are in an acid state, which means their pH is lower than 7.45 pH and their bodies contain an excess of hydrogen ions. These are the people who would greatly benefit from exposure to high concentrations of negatively charged ions. Most people would use a positive and negative ion in the IonCleanse session.

The IonCleanse can be used on anyone three years of age and older, as long as you have proper supervision. The recommended time and frequency will vary for each person. Generally, for patients under 50 years of age, is for every other day for 14 sessions with a break for three weeks in between and then another 14 sessions can begin.

Feeling lighter and a better feeling of well being are some things to expect for those healthy individuals for each session of the IonCleanse. There will be many different color changes during the session. Your feet will be in water and sometimes these color changes can occur due to the type of water and chemicals that are in the water. Depending on the water color will depend on the area of the body that is being detoxified.

RAINDROP TECHNIQUE

The Raindrop technique was originated by D. Gary Young and a Lakota medicine man in the 1970's. It is a massage with essential oils to bring the body into electrical and structural alignment. It is a powerful and non-invasive tool to help correct any defects in the curvature of the spine.

It is a sequence of antimicrobial essential oils that are designed to reduce inflammation and kill the viral components simultaneously. The oils used for this technique include thyme, oregano, birch, cypress, peppermint, basil and marjoram. The oils are distributed like little drops of rain about six inches away from the back. They are then massaged into the vertebrae. The process takes about 45 minutes. The oils will work for up to 5 to 7 days following a treatment. Re-alignment also continues to occur during this time.

This is not a cure or magic treatment. This is only one tool to help return a body that will be more in balance and result in a body in good health.
